

# What We Are Thankful For

To all our loyal clients and businesses we have had the pleasure of working with and to the people we have yet to meet,  
Thank you!

We are very proud and grateful to be a part of such a close-knit community that really tries to help the small businesses that exist in the Valley.

We have had the great pleasure of being able to shape and care for the Valley's beautiful trees, and it has been a wonderful 15 years.

While servicing our clients we have had many opportunities to give back to our local community organizations and for that we are thankful.

From my wife, my crew, my office staff, and myself we truly wish you all a Happy Thanksgiving and may your holiday season be joyful!
